Want to be part of the shift that is changing healthcare for the better?
Interested in "saving the world from bad food and bad medicine" ? Or how about educating the world about the joy of food as medicine and lifestyle / plant medicines? Would you enjoy health coaching?

Then I have the program for you; Functional Medicine Coaching Academy. I graduated from the one year course in June of 2017 as a Certified Functional Medicine Health Coach (FMCHC) and love this curriculum. I highly recommended it.
